REED'S

Five Year Diary

A retrospect of the last five years in Diary form.

This little book will not forget
The joys and sorrows I have met,
For in its pages every night
A record of the day I write.
A week, a month, one year or five
It keeps dear bygone days alive.
And each awakened memory
Brings back the golden past to me.

What is the most interesting book you have ever read? Ivanhoe? Sherlock Holmes? The Three Musketeers? Great books, thrilling books, all of them. But there is a book yet to be written which will thrill you more than any of the greatest classics, one that will rouse in you the most vivid interest you have ever felt. And nobody but you can write it!

A great poet grieves for “the dear dead days beyond recall.” But the past is not dead, nor is it beyond recall. You can have a book which will so preserve your golden days that you can relive them whenever you wish. And five minutes a day will give it to you!

Start your diary tonight; nothing long and tiresome, just jot down the chief events of the day. Do it again tomorrow night, and the next, just a line or two each evening. At the end of a year you won’t exchange this book for all the libraries in the world. For it is your very own; the living record of your daily joys and sorrows, your work, your friendships. To read it is like living again!

Designed for just such a record, this little book will store up for you five years of your life. Give it just five minutes a day for those five years . . . and you will find that it has grown into—the greatest book in the world.

Beautiful, clear day. Up early with help and got ready for the Democratic Executive Committee meeting which we entertained tonight at a buffet supper. Wares in large red tulips, roses, mums, and pots of heliotrope and pineapple decorated the mantles and tables. Had 24 small tables all set in the hall room for buffet supper served on diminutive tables—ham, scalloped oysters, stuffed tomatoes, stuffed celery, potatoes, chips, beaten biscuits, hot rolls, pickles, salads, then ice cream or cake with K.C. on each piece. Woman poured oj in ball room, blanched the veg, and set the jive. Stewards helped manage served ham. About 135 present, all seeming to have a good time and enough to eat. Every seat helped serve. Many of my friends present. Some little in his chair, a man sitting on armchairs, and the others going to Capitol for meeting. Many and others talked late here. I came upstairs and to bed.

Wondrous, coming Tuesday. 83° in.

Massing people to the beaches.

Babies and children out airing.

Without coats, women bare armed.

Gene, Sister, and I went to see

Several houses with a real estate

agent. Took Gene with us and

she enjoyed her first outing since

her sickness.

After lunch, babies

to sleep, and we rested, too.

“Mary” left at 2:30 as usual.

Sister and Gene started out at

3:30 looking at more houses

and riding, taking Gene, Dr.

Miller, Son, and wife Eileen. I

found Jack come over to call. Hadn’t seen

him for years. Both so nice.

Brought Sally Darador a lovely sweater.

Sister and Gene came in late to

left at 6 with it, then we fed the

babies and warmed up our

supper.

Afterward, we took our

time reading all the Sunday papers

and talking of our house plans.

Was a bunch of H.E. papers to read

also, telling about fundamental race-

getting warmed up now—Harvey

& Susan, attending, map and his

administration. Special from home.

Monday.

Summer has come surely. Beautiful outside. Beth from home, saying May Jr. a little upset having 9 1/2 fever. They are doctoring and keeping him on a diet.

Will keep you posted. He received a 6 week old fox terrier puppy for his birthday from them and is happy all at home doing alright. Ralph going to go to Olympic Games in California in June with Linchegan boy and Belmore.

Jane goes to Shelly's on a visit.

Sister and I went out house-hunting again with another agent. Saw two that were rather desirable.

Took Grace down town walking with the doll carriage-first lost walk of Sister's. "Monty" went first and marketed. Baby fine and growing too. Gene came at 6:15. After dinner 'and putting babies to bed we went to several other houses. Surely we will get what we want and at our price soon!

While we talked late I fixed Sister's pajamas. Cleo called, went to lunch with her Friday. Baby cried awhile before 10 o'clock feeding time. Slept all night—until 7. We went to bed at 12.30. Very bright sunny time.
Beautiful weather - last warm May day of 1932 breaks 26 year

Up early. Did a lot of last minute packing. Old John (driver) from Greenville, S.C. helped us move. The van came at 8 am, and it was loaded! We left in car before van started. The Cromwells were just leaving. Left the house in very good order, except many papers about all plunged in unpacking and placing things. Wanda and I sent over another van of furniture, and they helped. A busy, busy day for all and oh, how much we accomplished, but how tired we are! at 7:30 we went to the Cildman's for a good dinner. They came back and sat until 10:30. She made a lovely shortcake for the new house keepers! We feel very fine in the new home, everything about it's place except one room. The furniture — Early English beautiful and so appropriate. Seen so happy with the Ford.
MAY 29

Slept and rested late. All tired. Beautiful weather. Babies slept well. I worked all day in the little guest room, unpacking Sisters clothes, placing things in their right places. "Shanny" left after lunch. Guen and Jeter took a walk to town while Gene went to post Office. We and I put up dexin-worn curtains! Forgot it was Sunday! Guen played in the yard and her sand-box. She is so happy now. "ma house" we all are delighted with this comfortable place and feel like millionaires! Special from擘de all well slept anyway for me to return. Very cold. MAY 30 Gene had to go to Coleman's yesterday and borrow a rack of tools. Soon we had our little home nice and warm. Gene played out in yard after it warmed up. I sat out in the beach chair while Gene and John worked in yard—mowed the yard, planted grass, worked the roses, etc. Turned out to be a lovely balmy day! and a great celebration everywhere as it is Memorial Day—all stores, banks, etc. closed. Gene worked hard on his holiday. We all did, and we did a lot of the "little" things that are always necessary. Gene had a big wash. At 3:30 Trudy, Twist, and Ann came, stayed for a quick chicken dinner and left at 9:30. They were delighted with the house. Phone man at 10:30 that I was staying in until Wed. night—then to bed.

Had a good dinner, then figured out our "finances" wrote in diary, worked at ballots sent from Isabella, and talked about "our possessions" all decided to go to bed earlier than usual. Cool tonight.

Wannamakers then came, so helped place those when Gene came. Finished packing clothes and said goodbye to my babies! Left for H. J. taking train at 7:40. Sister and Gene mailed their laundry on way. How I hated to leave these dear children after living with them 5 weeks. Feel satisfied, though now they are in such a nice, comfortable home. Hoped porter to make berth: dam at 9:30 and to bed.

A big vote will be cast.
Everybody here on high tension hoping and praying our candidate for Gov. will be nominated. Fanning has made such a bitter attack on May and his administration, we want him swamped and our cause vindicated by the election of J.B.C. Cringham, who has upheld our policies all along.

Busy most of day unpacking packages, straightening things after my 6 weeks away from home! Read a lot of back papers.

Ralph, Seniors and Joe went to State College tea dance also the last night and tonight dance.

May and Gill stayed at the Raleigh Times Office until 2:30 waiting on election returns. Mom, Wade and I stayed up until one, listening over radio.

Cringham, 110, 820, Maxwell and Fossett 20, 000 at that hour—so happily to bed! Had checks Sept. 17.

papa, j. and charles to farm. We sit by radio hourly enjoying the excitement of the convention. What a galaxy of outstanding men on the platform today nominating presidential candidates and rant writers. Panels and luncheon speeches all get—especially Roosevelt, nominated beautifully by f.d.r. much of d.f.t. much parade, many parades for favorite cues, and fine oratory! nana and i sat all night (without understanding) listening to all this—hoping for the ballots to begin closer minute and hoping roosevelt would win on the first. Sunday July 3

1920. Cool, pleasant day. All stayed in bed; late reading papers telling in detail about the great convention in Chicago, and the returns and comments on the gubernatorial and senatorial race. Elbridge G. and a safe dead, but almost "ruined" by the prohibition wave with Reynolds and the "Fountain" linked up together. Much mud being by the "Fountaintite" and "Cries of machine." Fountain and his managers silent until official returns are reported; go for 11,000 ahead, and Reynolds continues to increase; his lead goes over 20,000. What an upset! There are strange, curious, confused times, revolt and discontent in the mass, and no one would have thought that N.C. would go "wet" so overwhelmingly.

Cleo: Worpac and Tommy came on 5:30 train from Shelby. The Geo. Ross Pows called at 5:00. Quiet on crutches, yet linct looking fine. He was down at our money's defeat.
