Dearest Fay

I am writing this card to tell you that Willis is critically ill - in fact we had a letter from Mary Lou and a card from Abby telling us that the doctor said he wouldn't pull through this time besides his bad heart he has complications - liver and kidneys. He was taken ill just before I went to Pittsburgh in July. I only saw him a few minutes shortly after I arrived here then I became ill and had to return home. George and Louise flew in from that last week. I knew you would be interested. I am feeling better but the weather is so terribly hot. Hope you can come to N.J. when it gets cooler. Love Lillian
