## **Acknowledgements**

I would like to acknowledge and thank GOD almighty, the alpha and omega for giving me the strength, aptitude, and resilience to successfully complete this doctoral program. Without him, none of this is possible. To my father Esau Gathers Sr., WW2 Veteran, Korean War, Retired USAF, husband of 52 years, father of eight boys, thank you for instilling in me the importance of education. You are the greatest hero and role model anyone could ask for. You always said, that if I ever get this head on me, I would be something. Your baby boy is a work in progress, still trying to be something. To my mom Lucille Earline Gathers, thank you for all the morals, values, and discipline you instilled in me. Thanks for allowing me to draw upon your spirits. I love and miss you both and hope to make you proud someday. To my wife Regina, the love of my life. Thanks for your prayers, patience, and encouragement. To Jalen and Jazmin, my wonderful gifts from above, I pray that you embrace learning as a daily habit and that you continue to grow and adapt. Set your sights very high. It is never too late to start or finish your goals. To my brothers, Esau Jr, Ronald, Master Wahoo, Frederick, Carl, Aubrey, and Emery, I thank GOD for the relationships and bond that we have. Thank you for looking out for your little brother over the years. I really appreciate all the life lessons and examples you have given. I will always be here for you. To my 50 nephews and nieces, our legacy is strong. Continue to raise the bar and pursue your purpose and destiny. To my peeps in the Old Village, I stand upon the shoulders of our historic community and I will continue to strive to uplift humanity and our community. Better than good is what we are. Great we will become. To Gardner Webb University, I am thankful for the Christian faith-based community that fostered a nurturing environment.

Having the freedom to pray and openly express your faith is necessary for learning and development. To my German Shepherd and best friend Prince, I love and appreciate you being there with me through the thick and thin.

## **Abstract**

Governance to Growth, Nonprofit Vocational Rehab. Gathers, Sheldon L., 2019:  
Consultancy Project, Gardner-Webb University

The purpose of the Consultancy Project was to help move the organization forward as they stabilized their operations. The nonprofit is a vocational rehabilitation facility located in the southeastern United States. The pseudonym is “Better than Good,” referred to as BTG. Their mission is to provide employment and training opportunities for individuals with barriers to employment. Better than Good has been in existence for 30 years and has experienced some operational and fiscal challenges the last few years. As a result of the challenges, all the energy and focus by the Board of Directors and staff was placed on governance and oversight.

The primary objective was to understand the organization’s brand value and provide the board and executive leadership with tangible solutions that could be implemented in the short term, while helping to transform them into a sustainable culture of growth and development. The consultancy focused on several areas including board policy review, committee structures, resource development, fundraising, and business partnerships. The challenges of executing the consultancy project included transforming the board from governance to development through the implementation of policy changes and new standing committee structures. Identifying financial resources for a new staff member to focus on community resource partnerships was also a challenge.

While challenging, the results of the consultancy project included several successes, including the hiring of a community resource officer to focus on resource development and business partnerships. A grant writing resource was also identified to assist with state and federal grants and the development of an annual fundraiser. The success of the project has been quantified by the organization to have a forecasted year one impact of ~ \$150k and a 3-year impact of ~ \$600k.

## **1 Introduction**

### **1.1 Project Purpose**

The purpose of the consultancy project was to assist Better Than Good (BTG) with their ability to grow and serve out their mission. This involves having actionable strategies that involve all stakeholders. The project focused on the execution of a marketing plan and having the board of directors play an active role in transforming from oversight and governance to fundraising and development.

The objective of the project was to assist with the transformation of structural and behavioral changes that will allow the organization to grow and attract business partners and clients to fulfill their mission to provide employment and training opportunities for individuals with barriers to employment. A barrier is defined as anything that limits a person's ability to obtain and maintain employment.

### **1.2 Associated Documents (Appendix)**

- 1.2.1 Change Process Model Used
- 1.2.2 BTG Mission and Vision Statement
- 1.2.3 Strategic Plan
- 1.2.4 Board Member Contract

The purpose of the consultancy project was to help transform BTG from an organization primarily focused on governance and finances to an organization that can grow and develop their core mission.

### **1.3 Project Plan Maintenance**

BTG hired a new Executive Director in 2015 who developed a strategic plan to ensure that their fiscal stability was sound to provide a solid foundation that the organization could build upon. This plan included looking at all areas of operations, including finances, staffing, business partnerships, resources, and technology to achieve the short- and long-term plans.

How was plan implemented and maintained?

- Executive Director developed and presented plan for approval from Board of Directors.
- Board of Directors provided feedback and unanimously approved the strategic plan.
- The strategic plan was shared with staff and implementation began with timelines for execution.
- The plan was regularly reviewed in staff meetings monthly and adjustments are made if needed to goals to insure execution.
- The Executive Director provides an update and report monthly to Board of Directors and staff regarding the measurable deliverables.

## **2 Project Scope**

This section provides an overview of the project's objectives, both from the partnering organization's perspective and from the student's perspective. The key success criteria and major risks are highlighted.

### **2.1 Outline of Partnering Organization's Objectives**

#### **2.1.1 Objectives**

BTG urgent priorities:

- Insuring the stability and sustainability into the future
- Improved fiscal mismanagement and operational excellence
- Balance of board governance and resource development
- Transforming board from governance to resource development
- Resources to hire community resource staffing
- Updating and improve the functionality of the website
- New grant writing opportunities to enhance revenue
- Helping to fully maximize their community brand value

#### **2.1.2 Success Criteria**

- Enhanced Brand Value of BTG
- Board member policy changes with role clarity and contract
- New standing committee for development and fundraising
- Development of annual fundraising event
- Staff resources dedicated to development of community resources
- Implementation of new website
- Successful completion of audit
- Identification of grants and grant writing resource

#### **2.1.3 Risks**

- Culture is entrenched; staff, board and leadership reluctant to change
- Financial problems too severe and require only operational focus
- Resources not available to staff community development employee
- Unable to identify new staff for community development position
- Current board members unwilling to commit to fundraising
- Current mix of board members not suited for development
- Ongoing audit is unfavorable and limits grant writing abilities
- Website is not user friendly and has limited functions

### **2.2 Outline of Student's Objectives**

#### **2.2.1 Objectives**

The objective of the project was to provide an objective external perspective of the organization and leverage their strong legacy years to explore new ways to stabilize the organization for the next 30 years. The primary objective was to understand the organization and their brand value and provide the board and

executive leadership tangible solutions that could be implemented in the short term while helping to transform them to a sustainable culture. The project assisted with board policy review and made recommendations for committee structure and commitments.

### **2.2.2 Success Criteria**

- Board members and staff willingness to change and transform
- Board members engaged in development and resource contributions
- New board member contracts highlighting meaningful contributions
- Establishment of annual fundraising event
- Hiring of dedicated staff to engage community resources
- BTG highlighting their brand value in the community
- New community partnerships developed
- Successful financial audit
- BTG actively applying for grants
- New functioning website with capabilities to receive contributions

### **2.2.3 Risks (Mitigation Plans, 9.1,9.2,9.3)**

- The current leadership and board members for the last 2 years were focused on operational efficiencies to ensure the long-term survival of BTG given the financial challenges of the organization.
- Transforming the organization from governance to development requires a shift in mindset and culture. It is not as easy to simply flip a switch and change focus, given the severity of the situation.
- There was the risk and challenge of wanting to go slow or take a wait and see approach relative to embracing change; however, the leadership recognized to secure and sustain the organization change is inevitable.

## **2.3 Definitive Scope Statement**

The consultancy helped BTG maximize their brand value and transition from an organization that has been focused internally and primarily on operations and financial stability to an organization that can externally leverage community resources and partnerships, to grow and live out their mission “to provide opportunities and training for people with barriers to employment.” The project scope includes

- Review of Board of Directors Bylaws
- Standing Committee Recommendations
- Development of Board Member Contract
- Identifying Grant Writing Resources
- Identifying Community Relations Staff Resources
- Identifying Resource Partnership Opportunities
- Review and Update of Website
- Design and Development of Annual Fundraiser

#### 3.2 From Student

- The project provided input on website development and launch.
- The project developed a golf fundraising plan for launch and execution.
- The project reviewed Board of Directors Bylaws and made several change recommendations including standing committees & meaningful contribution language.
- The project sourced and identified partnership opportunities.
- The project sourced and identified grant writing resources.

## 4 Project Approach

### 4.1 Project Lifecycle Processes

The overall approach to the project involved the following monthly and quarterly routines that provided that engaged leadership, staff, and board members who provided feedback and vital insights into the culture and issues facing the organization.

- Quarterly meetings at on-site locations provided an opportunity to understand the operations and engage staff as they worked with the clients and customers they served.
- Quarterly meetings at headquarters location with Executive Director and H.R. Director were structured and heavily focused on tasks and deliverables.
- Board meetings were held monthly and provided the opportunity to engage with members and provide updates on the project and receive valuable feedback directly from members.
- Conference calls were also a medium that allowed for conversations with various third-party business partner relationships and additional community resources that contributed to deliverables being executed.
- The project was split into the following phases:
  - Fundraising Event Development,
  - Board Members Bylaws, Policy Review,
  - Sourcing Community Relations Staffing,
  - Grant Writing Resources,
  - Business Partner Development, and
  - Development of Website.
- Individual reviews of brand value in the community were done by collaborating with Executive Director and Director of Human Resources and by speaking with various stakeholders in the community.
- The project leveraged the expertise and prototype of a four-star golf course to recommend best practices to design the golf tournament fundraising event the organization selected for their annual fundraiser.
- Input was consistently requested and received throughout the project by engaging leadership in the above manners. This approach was very efficient and effective for leadership to provide input and feedback.

### 4.2 Project Management Processes

Monthly board member meetings along with quarterly task meetings with the Executive Leadership provided the forum for feedback and approvals and changes on deliverables.

- The board decided on two occasions to delay the launch and implementation of the annual fundraising event at the monthly board meetings.
- Dates were reviewed, updated, and changed in quarterly task meetings by leadership relative to pursuing grant writing initiatives because the annual audits were not completed on time by the external auditors.
- Board members reviewed the launch of the annual fundraising event until the hiring of the Community Relation staff, given they would be a critical driver to the success, and it was risky to pursue a fundraiser without having a dedicated staff member on board.

### **4.3 Project Support Processes**

The Executive Director was responsible for all management functions including staffing and operations.

The Director of Human Resources was a key player in the project and served as the consultant's primary engagement and contact throughout the project.

The Chair of the Board of Directors provided oversight and leadership for the organization and was also a key decision maker and leader of the board.

The Director of Finance was also instrumental in providing key financial metrics regarding the overall health and stability of the organization

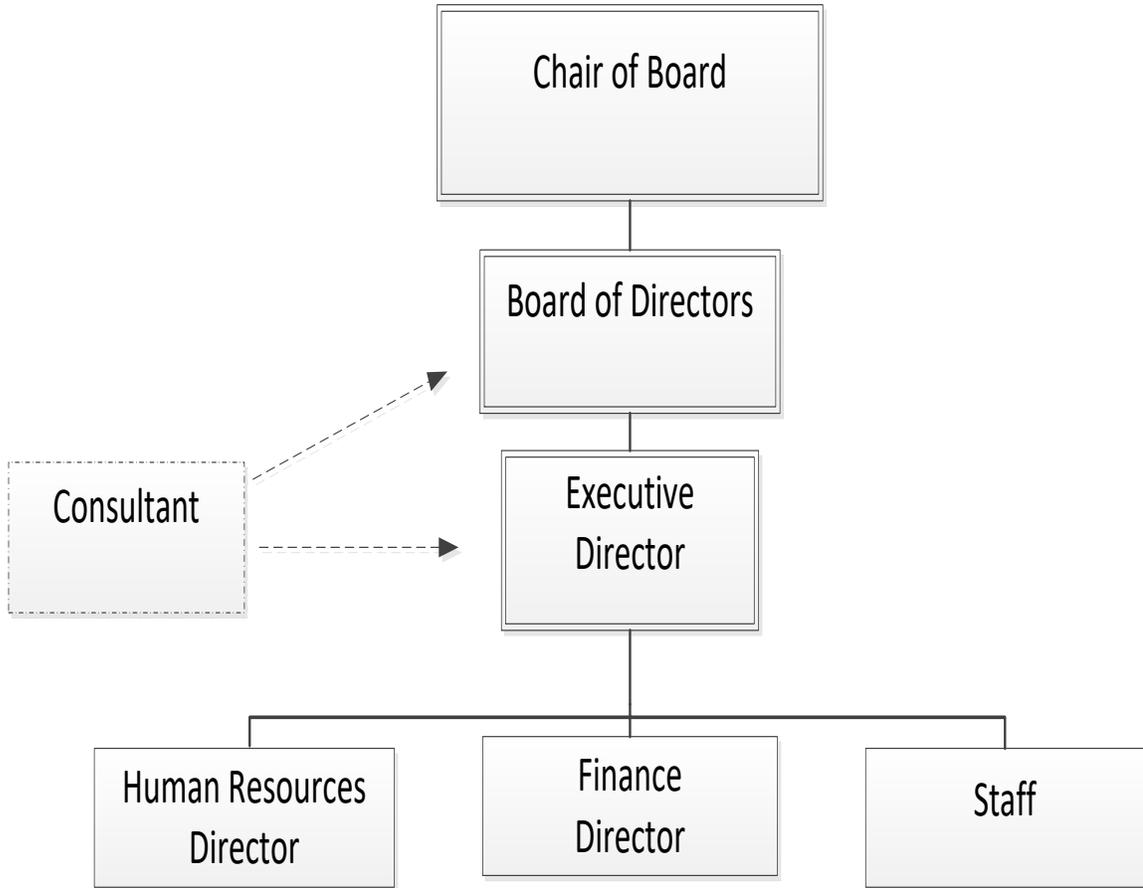

### **4.4 Organization**

#### **4.4.1 Project Team**

The project collaborated with the following members of the partnering organization's team below:

- Board Chair
- Board Members
- Executive Director of BTG
- Director of Human Resources
- Director of Finance

|   | <b>\$250,000</b> |

The consultancy project has a 3-year projected revenue of ~ **\$605,000** based on the successful continuous execution of the deliverables and how quickly the board and culture can transform from governance to development. The organization has a bright and optimistic outlook based on the Community Relations Coordinator new hire and given that operational challenges have stabilized and audits have been completed. BTG now has the opportunity to pursue grants and community partnerships to maximize and grow their brand value while fulfilling their mission. The Board of Directors, leadership, and staff are in direct control of managing the outcomes.

## 11 Quality Assurance Plan

### BTG

The Plan, Do, Check, Act model was selected as a problem-solving model to be utilized in the Quality Assurance Plan. This methodology allows for a continuous improvement process to be implemented to address any new or reoccurring issues in a systematic way.

#### Study/Check:

- BTG was engulfed in a survival and stabilization mode for the last 2 years as a result of mismanagement from previous leadership.
- BTG Board of Directors was primarily a governance board and did very little business development.
- Board of Directors and staff have focused primarily on auditing and efficiencies to ensure the organization would remain relevant and continue to operate and fulfill its mission.

- Audits are being finalized to allow BTG the ability to begin grant writing.
- There were no alternative revenue sources coming from fundraising.
- There is no tracking of additional financial resources generated by board and staff.

**Plan:**

- Migrated the board from primarily a governance to development and governance
- Developed an annual fundraiser to engage the board and staff to generate revenue
- Sourced funds to hire a community resource and marketing staff position
- Identified grant writing resources to generate additional funds

**Do**

- Engaged the board in development of new bylaws for board member expectations
- Developed a committee structure that engages all board members
- Regularly engaged in planning and sourcing development opportunities
- Identified potential partnerships for funding sources

**Act:**

- New and existing board members sign board member contracts
- Changed bylaws to require meaningful contributions from board members
- Monitor and review board member contributions
- Launched new website to market and promote BTG
- Hold board members accountable for development annually

**Draft**

**Board Member Contract**

I, \_\_\_\_\_, understand that as a member of the Board of Directors of the Better Than Good, Vocational Industries, Inc. (BTG), I have a legal and ethical responsibility to ensure that the organization does the best work possible in pursuit of its goals. I believe in the mission of the organization, to provide training and employment

opportunities for adults who have barriers to employment. I will act responsibly and prudently as its steward. As part of my responsibilities as a board member:

1. I will interpret the organization's work to operate for the purposes of evaluating and training handicap persons and providing each person with an opportunity to develop his/her optimal level of independence in as normalized environment for all persons without regard to race, ethnicity, gender expression, sexual orientation, socio-economic background, immigration status, age, religion, body shape, size, ability, or political affiliation and values to the community, represent the organization, and act as a spokesperson.
2. In turn, I will educate myself on the needs of BTG and to the organization from an empowerment perspective, speak out for their interests, and, on their behalf, hold the organization accountable.
3. I will attend at least 75 percent of board meetings, committee meetings, and special events.
4. Each year, but no later than Thanksgiving of each year and without having to be asked, I will make a personal financial contribution at a level that is meaningful to me.
5. I will actively participate in one or committees and resource development activities.
6. I will excuse myself from discussions and votes where I have a conflict of interest.
7. I will stay informed about what's going on in the organization. I will ask questions and request information. I will participate in and take responsibility for making decisions on issues, policies, and other matters. I will not stay silent if I have questions or concerns.
8. While I am a member of this board, I will make every effort to vote in every action that comes before the board.
9. I will work in good faith with staff and other board members as partners toward achievement of our goals.

*The board chair should sign two copies of this agreement for each board member. Each new board member should sign both, return one copy to the board chair, and keep the other for reference. Signing the agreements ensures that board members have read them.*

*Use an Appendix for detailed information, so that the summary document can remain as compact as possible for easy reading. Appendices should contain the defense presentation. Appendices may contain more detailed financial information, more detailed scheduling information, etc.*
